

# Watchlist Alerts - Quick Start Guide

---

## Get Instant Alerts When Wallets Make Trades

---

### Step 1: Add a Wallet to Your Watchlist

#### 1. Navigate to Wallet Tracker

- Click “Wallet Tracker” in the sidebar
- Or visit: <https://defidashtacker.com/wallet-tracker>

#### 2. Add Wallet Address

- Click “Add to Watchlist” button
- Enter wallet address (e.g., 0x742d35Cc6634C0532925a3b844Bc9e7595f0bEb )
- Select blockchain (Ethereum, Base, BNB, Solana, etc.)
- Add label (optional): “Whale #1” or “Smart Money Wallet”
- Click “Save”

#### 3. Optional: Track Specific Token

- Enter token contract address
- Enter token symbol (e.g., USDC)
- Only alerts for this token will be sent

### Step 2: Enable Telegram Notifications (Optional)

#### 1. Open Telegram

- Search for: @YourDeFiDashBot
- Click “START” button

#### 2. Link Account

- Bot will send your chat ID
- Go to Settings in DeFiDash
- Enter your Telegram username and chat ID
- Save settings

### Step 3: Start Receiving Alerts

**That's it!** The system now monitors your watchlisted wallets automatically.

#### When a Wallet Makes a Trade:

##### In-App Alert

- Bell icon (top-right) shows new alerts
- Click to view transaction details
- Click again to mark as read

##### Telegram Notification

- Instant message with:
- Transaction type (Sent/Received/Swap)
- Token and amount
- Blockchain explorer link
- Wallet address

## Example Watchlist Setup

### Track a Whale Wallet

Address: 0x742d35Cc6634C0532925a3b844Bc9e7595f0bEb  
 Chain: Ethereum  
 Label: Whale Wallet #1  
 Token: [Leave blank to track all tokens]

### Track USDC Activity Only

Address: 0x8A9E890f48Df383a6839387bC93cB661C1c7D87a  
 Chain: Base  
 Label: Base Trader  
 Token: 0x833589fCD6eDb6E08f4c7C32D4f71b54bdA02913  
 Symbol: USDC

## Alert Types You'll Receive

Type	Icon	Description
<b>Sent</b>	📤	Wallet sent tokens to another address
<b>Received</b>	📥	Wallet received tokens from another address
<b>Swap</b>	🔄	Token swap detected (DEX transaction)
<b>Contract</b>	📝	Smart contract interaction

## Understanding Your Alerts

### In-App Alert Example

📣 SENT Transaction  
 Chain: BASE  
 Wallet: 0x8A9E89...c7D87a  
 Amount: 1,500 USDC  
 View on Explorer  
 Nov 14, 2025, 2:45 PM

## Telegram Message Example

 SENT Transaction

 Chain: BASE  
 Wallet: `0x8A9E89...c7D87a`  
 Amount: 1,500 USDC

 View on Explorer

---

## Monitoring Frequency

### Automated Checks: Every 1 hour

- System scans all watchlisted wallets
- Detects new transactions since last check
- Sends alerts immediately when found

### Manual Check: Anytime

- Visit Wallet Tracker page
- Click "Check Now" button

## Tips & Best Practices

### Do's

- Label your wallets clearly
- Use token-specific tracking for focused alerts
- Connect Telegram for instant notifications
- Check bell icon regularly

### Don'ts

- Don't add too many wallets (Free: 3 max, Premium: unlimited)
- Don't expect real-time alerts (1-hour monitoring interval)
- Don't forget to mark alerts as read

## Premium Features

Feature	Free	Premium
Watchlist wallets	3	$\infty$
Alert history	7 days	90 days
Token-specific tracking	✗	✓
All blockchains	Limited	✓

**Upgrade to Premium:** Visit Settings → Subscription

## Troubleshooting

### Not Receiving Alerts?

#### Check These:

1. ✓ Wallet added to watchlist
2. ✓ Correct blockchain selected
3. ✓ Wallet has transactions in last hour
4. ✓ Telegram linked (for Telegram alerts)
5. ✓ Check spam folder (email alerts)

### Telegram Not Working?

1. Start the bot: /start
2. Get chat ID from bot
3. Update Settings with username + chat ID
4. Test with: /test

### Too Many Alerts?

- Use token-specific tracking
- Remove inactive wallets
- Adjust notification preferences in Settings

## Support

### Questions?

- 📩 Email: support@defidashtracker.com
- 💬 Discord: [Join Server]
- 📡 Telegram: @DeFiDashSupport

### Report Issues:

- GitHub: [Report Issue]
- In-App: Settings → Help & Support

---

## What's Next?

---

1. **Add More Wallets:** Track multiple smart money addresses
  2. **Analyze Patterns:** See what tokens whales are buying
  3. **Copy Trades:** Use insights to inform your strategy
  4. **Upgrade to Premium:** Unlock unlimited watchlist slots
- 

 **You're all set!** Your watchlist is now actively monitoring wallets and you'll receive alerts whenever they make trades.

Happy tracking!
